Common Questions

How long will the visit last? What will happen?

The visit will take about 45 minutes. You will see a doctor, a nurse, or a pharmacist. The doctor will ask you about your health and what you are taking. The pharmacist will check your medications. The nurse will check your vital signs.

Where should the visit take place?

The visit will take place in a room that is set up for a doctor's visit. There will be a desk for the doctor and a desk for the pharmacist. There will also be a desk for the nurse.

Do I need to prepare for my visit?

Yes, you need to prepare for your visit. You should bring a list of all the medications you are taking. You should also bring a list of all the symptoms you are experiencing.

Be prepared to discuss your health and what you are taking.

We will be able to help you with any questions you have.
