

Beginning with the 2024-2025, the Free Application for Federal Student Aid (FAFSA) you and your contributors must provide consent and approval to have the IRS transfer your federal tax information into the FAFSA form using the IRS Direct Data Exchange (DDX). Your contributors must provide consent and approval even if they don't have a Social Security number (SSN), didn't file a tax return, or filed a tax return outside the U.S. If you or your contributors don't provide consent and approval, you won't be eligible for federal student aid.

Even with the implementation of the DDX, there will be situations where the DDX will be unsuccessful in transferring your federal tax information. There will be other situations where it was successful, but the Department of Education (ED) is requiring the institution to verify information that we can only get by collecting certain tax documents.
