University of Southern Indiana
Evansville, IN

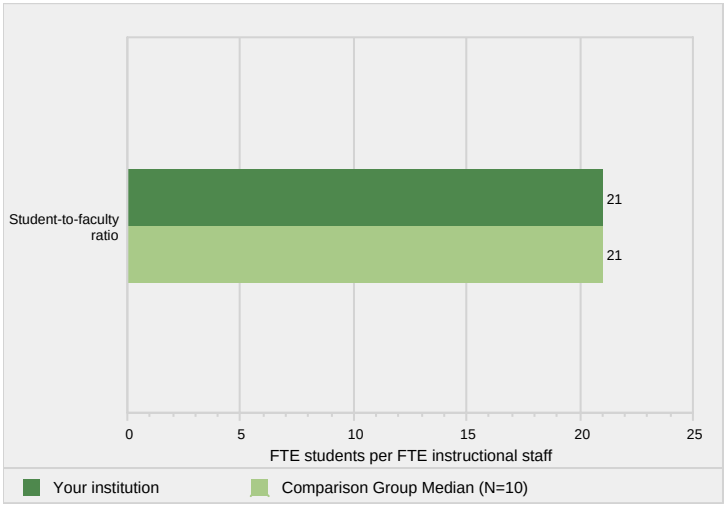
The Integrated Postsecondary Education Data System (IPEDS) is the nation's core postsecondary education data collection program. It is a single, comprehensive system designed to encompass all institutions and educational organizations whose primary purpose is to provide postsecondary education. For additional information see http://nces.ed.gov/ipeds.

October, 2009

Dear Institutional Executive:

The National Center for Education Statistics is pleased to provide you with your institutionîs annual ***IPEDS Data Feedback Report***. The report compares data provided by your institution in 2008-09 through the Integrated Postsecondary Education Data System (IPEDS) to data for a siyoPiom ξ ⁎ l

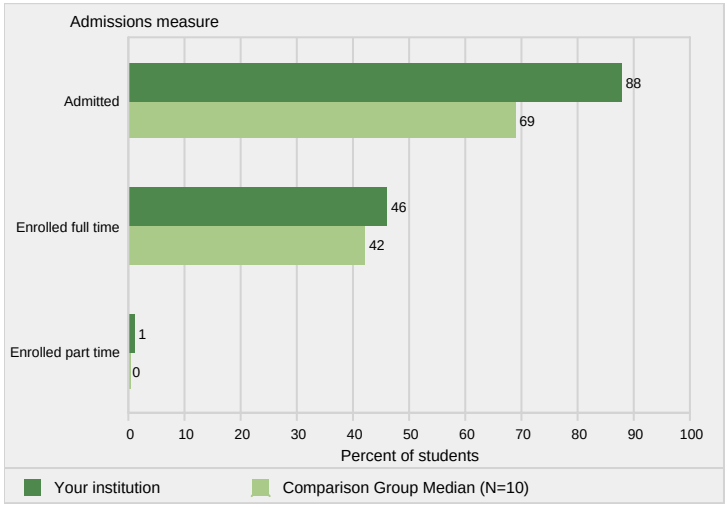
Figure 4. Student-to-faculty ratio: Fall 2008



NOTE: Student-to-faculty ratio data is presented only for institutions that have undergraduate students; graduate only institutions are not included. For details on how the ratio is calculated, see the Methodological Notes. N is the number of institutions in the comparison group.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Integrated Postsecondary Education Data System (IPEDS): Spring 2009, Fall Enrollment component.

Figure 5. Percent of applicants admitted, and percent of admissions enrolled by full- and part-time status: Fall 2008



NOTE: Admissions data are presented only for institutions that do not have an open admission policy, and apply to first-time, degree/certificate-seeking undergraduate students only. For more information, see the Methodological Notes. Median values for the comparison group may not add to 100 percent. See "Use of Median Values for Comparison Group" for how median values are determined. N is the number of institutions in the comparison group.

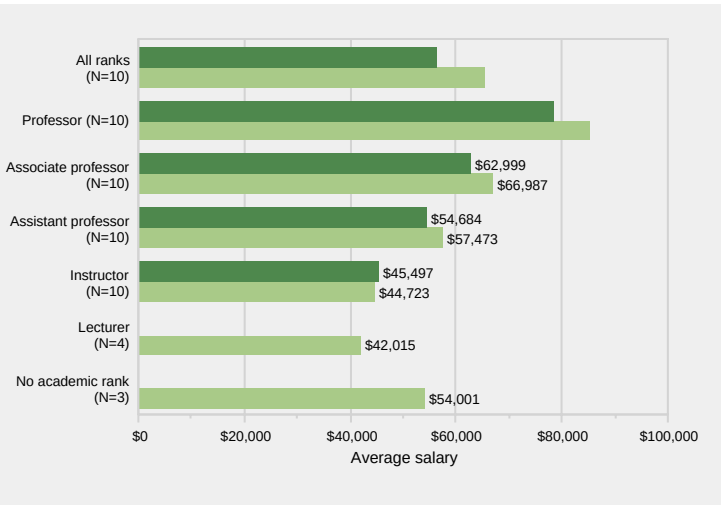
Figure 18. Average salaries of full-time instructional staff equated to 9-month contracts, by academic rank: Academic year 2008-09



NOTE: Average full-time instructional staff salaries for 11/12-month contracts were adjusted to 9-month average salaries by multiplying the 11/12-month salary by .8182. Salaries based on less than 9-month contracts are not included. Medical school staff salaries are not included. N is the number of institutions in the comparison group.

Figure 19. Percent ϔ ʻ nt ɦ > c Ẹ Ч . ʻ = + ˷ * * ƙ ӥ ת Ẋ ӈ̆ ¿ AB

The custom comparison group chosen by University of Southern Indiana includes the following 10 institutions:

- Ferris State University (Big Rapids, MI)
- Kutztown University of Pennsylvania (Kutztown, PA)
- Minnesota State University-Mankato (Mankato, MN)
- Northern Michigan University (Marquette, MI)
- Sam Houston State University (Huntsville, TX)
- Slippery Rock University of Pennsylvania (Slippery Rock, PA)
- Southern Illinois University Edwardsville (Edwardsville, IL)
- The University of Tennessee at Chattanooga (Chattanooga, TN)
- University of West Georgia (Carrollton, GA)
- Western Carolina University (Cullowhee, NC)

This report is based on data supplied by institutions to IPEDS during the 2008-09 survey year. Response rates exceeded 99 percent for most

Endowment Assets

Endowment assets, for public institutions under GASB standards, and private, not-for-profit institutions under FASB standards, include gross investments of endowment funds, term endowment funds, and funds functioning as endowment for the institution and any of its foundations and other affiliated organizations. Private, for-profit institutions under FASB do not hold or report endowment assets.

Equated Instructional Staff Salaries

Total salary outlays for full-time instructional staff on 11/12-month contracts were equated to 9/10-month outlays by multiplying the outlay for 11/12-month contracted instructional staff by 0.8182. The equated outlays were then added to the outlays for 9/10-month instructional staff to determine an average salary for each rank. Salaries for staff on less-than-9-month contracts are not included.

FTE for Enrollment

The full-time equivalent (FTE) enrollment used in this report is the sum of the institutionûs FTE undergraduate enrollment and FTE graduate enrollment (as calculated from or reported on the 2007-08 12-month Enrollment component) plus the estimated FTE of first-professional students. Undergraduate and graduate FTE are estimated using 12-month instructional activity (credit and/or contact hours). If applicable, first-professional FTE is estimated by calculating the ratio of full-time to part-time first-professional students from the 2007 fall counts and applying this ratio to the 2007-08 12-month unduplicated headcount of first-professional students. The estimated number of full-time students is added to one-third of the estimated number of part-time students. See ñCalculation of FTE Students (using instructional activity)ò in the IPEDS Glossary at http://nces.ed.gov/ipeds/glossary/.

FTE for Staff

The full-time equivalent (FTE) of staff is calculated by summing the total number of full-time staff from the Employees by Assigned Position (EAP) section of the Human Resources component and adding one-third of the total number of part-time staff.

Graduation Rates and Transfer-out Rate

Graduation rates are those developed to satisfy the requirements of the Student Right-to-Know and Higher Education Opportunity Acts and are defined as the total number of individuals from a given cohort of full-time, first-time, degree/certificate-seeking undergraduates who completed a degree or certificate within a given percent of normal time (for the degree or certificate) before the ending status date of August 31, 2008, divided by the entire cohort of full-time, first-time, degree/certificate-seeking undergraduates minus any allowable exclusions. Institutions are permitted to exclude from the initial cohort students who died or were totally and permanently disabled; those who left school to serve in the armed forces or were called to active duty; those who left to serve with a foreign aid service of the federal government, such as the Peace Corps; and those who left to serve on an official church mission. Transfer-out rate is the total number of students from the cohort who are known to have transferred out of the reporting institution within the same time period, divided by the same adjusted cohort. Only institutions with a mission that includes preparing students to transfer are required to report transfers out.
