

ORDER OF THE 2012 SPRING COMMENCEMENT EXERCISES

Graduate Ceremony

Friday, April 27, 2012

6:30 p.m.

Processional

Evansville Brass Quintet

Pomp and Circumstance, Edward Elgar, Composer

Grand Marshal

Gregory P. Valentine, Professor of Business Education; Director of the Center for Economic Education in Southwest Indiana

National Anthem

Dewayne K. Watson, Jr. '12

Welcome and Introductions

Linda L. M. Bennett, President

Reflection

Dava J. Roth M'12

The Commencement Address

Sheila L. Hauck M'97 D'11, Executive Director of Professional Practice, Oncology, and Palliative Care, St. Mary's Medical Center

Presentation of the David L. Rice Alumni Achievement Award

Linda L. M. Bennett, President

Presentation of Candidates for Honorary Degrees

Linda L. M. Bennett, President

Assisted by Ronald S. Rochon, Provost

H. Ray and Rosalinda L. Hoops, Doctor of Laws

Presented by Ted C. Ziemer Jr., Trustee

Conferral of Degrees

Linda L. M. Bennett, President

Assisted by Ronald S. Rochon, Provost

Presentation of Graduates

J. Wayne Rinks, Associate Professor of Communications; Chair of Communications Department

Doctoral Degrees

Linda L. M. Bennett, President

Master Degrees

Ronald S. Rochon, Provost

Recessional

Evansville Brass Quintet

A reception will be held in University Center East immediately following the ceremony.

The speaker for the Commencement ceremony for USI Graduate Nurses is Dr. Sheila L. Hack, executive director of Professional Practice, Oncology, and Palliative Care at St. Elizabeth's Hospital in Evansville. The hospital was recognized last year with Magnet Recognition for Excellence in Nursing. Only seven percent of hospitals nationwide have achieved this distinction. Dr. Hack is a past president of the American Association of Colleges of Nursing and a past president of the American Association of Nurse Practitioners. She is also a past president of the American Association of Colleges of Nursing and a past president of the American Association of Nurse Practitioners. She is also a past president of the American Association of Colleges of Nursing and a past president of the American Association of Nurse Practitioners.

In 1997, she was a member of USI's first graduating class in the masters-level nursing program when she completed her masters certificate in the family nurse practitioner track. In 2011, she was among the first graduates of the Doctor of Nursing Practice (DNP) Program. Last year, she was named the recipient of the Distinguished Nursing Alumni Award from the USI Nursing Alumni Society. Her undergraduate degree and masters degree in nursing are from the University of Evansville.

Dr. Hack's clinical nursing career has been in the field of oncology nursing. She has been a leader in providing programs and services for cancer patients and their families. In the early 1980s, she assisted in founding Evansville's first hospice, Ohio Valley Hospice. She opened

Reflection

The speaker for the College of Science, Engineering, and Education Commencement is Dr. Joey Barnett, professor of pharmacology, medicine, pediatrics, and pathology, microbiology, and immunology at Vanderbilt University in Nashville, Tennessee. He also serves as vice chair of the Department of Pharmacology and recently stepped down as director of the graduate training program in pharmacology after serving in this capacity for more than 10 years. He remains active in graduate education in several roles including acting as associate director for the Howard Hughes Medical Institute Program in molecular medicine at Vanderbilt.

He received a bachelor's degree in biology in 1981 from the University of Southern Indiana. Following an undergraduate research fellowship at Argonne National Laboratories and the University of Chicago, he completed the doctoral degree in pharmacology at Vanderbilt University. Dr. Barnett served as a research fellow, and subsequently instructor, in medicine at Brigham and Women's Hospital, Harvard Medical School before moving back to Vanderbilt as an assistant professor of medicine.

Dr. Barnett has won numerous awards for teaching and mentoring at Vanderbilt. Nationally, he formed the organizing committee for the first-ever national meeting of directors of Graduate Study in Pharmacology and serves as the chair of the Graduate Education Committee for the American

J. WAYNE MERIWETHER TO DELIVER COMMENCEMENT ADDRESS

J. Wayne Meriwether M'08

Mr. J. Wayne Meriwether is the speaker for USI's College of Nursing and Health Professions Commencement. He is the chief operation of center at Methodist Hospital in Henderson, Kentucky. Methodist Hospital is a comprehensive healthcare system that serves Western Kentucky, Southern Indiana, and Southern Illinois. He earned the Master of Health Administration degree from USI in 2008. He completed a Bachelor of Science degree in business management from Murray State University in 1978.

Mr. Meriwether served as the co-chair of the founding committee for the St. Anthony's Hospice Lucy Smith King Care Center. The King Care Center is an inpatient hospice unit at Methodist Hospital. Prior to the opening of the inpatient hospice unit, there was no such care center in Northwest Kentucky.

Portions of his academic work in the USI master's degree program resulted in research used as a foundation for establishing the care center. The Lucy Smith King Care Center complements the operations of St. Anthony's Hospice by providing an additional level of care. With Methodist Hospital and St. Anthony's Hospice coming together, the dream of an inpatient hospice unit became a reality.

He also orchestrated a 130 percent growth in the Methodist Hospital swing bed program. The swing bed program allows for a hospital, with federal government permission, to operate a skilled nursing program to help hospital patients transition through a recovery phase. Patients designated for this level of care are allowed to "swing" from acute care to skilled care when they are in need of additional services before returning home or going to a rehabilitation unit.

Prior to becoming chief operation of center, Mr. Meriwether was director of Materials Management for 19 years at Methodist Hospital. Group purchasing contract implementation, supply distribution automation, and service agreement cost reduction were some of his achievements in that role. Earlier he worked at St. Mary's Medical Center and at ServiceMaster Industries, Inc.

He works with the Community Patient Safety Coalition of Southwestern Indiana Kentucky on patient safety efforts, including many that align with Partnership for Patients to make hospital care safe, more reliable, and less costly.

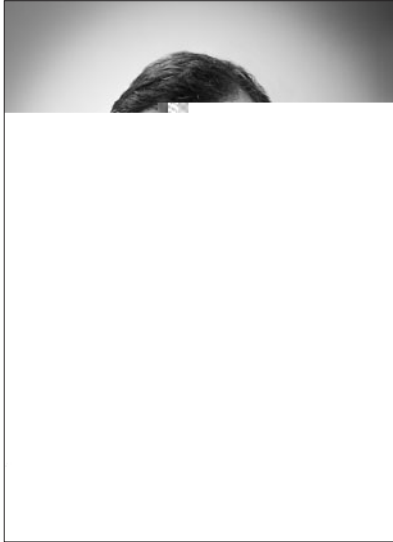

He is a community leader with involvement on boards for The Gathering Place, Northwest Kentucky Forward, Downtown Henderson Project, Hugh Sandefur Training Center, and more.

Mr. Meriwether, his wife Carol, and their daughter live in Henderson, Kentucky. Their son is a student at the University of Kentucky in Lexington.

Dr. H. Ray Hoops and Dr. Rosalinda
(Linda) Lagman Hoops came to
Evansville in 1994 when Dr. Hoops was
selected as the second president of the
University of Southern Indiana. Wo
(Li4(r)-31(n l)0(sy) L1e

DR. PAUL A. KUBAN TO RECEIVE DISTINGUISHED PROFESSOR AWARD

Dr. Paul A. Kuban, associate professor of engineering, is the 2012 recipient of the USI Distinguished Professor Award. Colleagues selected Dr. Kuban for his achievements in scholarship, teaching, and service. During the Commencement ceremony for the Pott College of Science, Engineering, and Education, he will receive the Distinguished Professor Award.

Dr. Kuban was granted a patent for an innovation which relates to improved technology for access between wired and wireless networks. The patent issued to Dr. Kuban is the first patent issued at the University of Southern Indiana to a faculty member for work done in conjunction with the USI Center for Applied Research in partnership with the Indiana University Research and Technology Corporation. The interface makes the fixed networks found in automotive networks, medical instrumentation consoles, and factory automation systems accessible to the latest standard in wireless networks.

The invention has been tested successfully in a factory automation

environment and on board earth-moving equipment. It has the potential of creating jobs as the commercial aspects are further developed. It would allow diagnostic codes from an automobile to be translated directly to a mechanics computer without having to connect the car to the computer. In a medical setting, the technology would allow continuous monitoring of a patient who is being wheeled from a patient-care room to the operating room.

"His work serves as a model for how the Engineering Department and the College of Business work together effectively," said a colleague. "Dr. Kuban is able to relate the process of obtaining a patent to our students who are interested in the entrepreneurial side of things."

Prior to joining USI in 1996, Dr. Kuban received two patents related to audio processing in cellular telephones. He completed a master's degree in electrical engineering at Purdue University and a doctorate in computer science and engineering at the University of Louisville.

Dr. Kuban's classroom leadership follows USI's student-centered approach to learning. A fellow faculty member said Dr. Kuban is able to relate the concepts from his invention and other experiences to engineering students in upper-division engineering courses. "Dr. Kuban's work inspires our students to do well at USI and later to engage in lifelong learning and to look at both the business side and the technical side of engineering."

An alumnus who attended USI as a nontraditional student credits Dr. Kuban for his assistance in "making it through the tough years of college." He said, "Dr. Kuban always made time

to listen to my concerns as a student, be it my personal hurdles or my academic woes. I still refer students to him as a source of both direction and support. He brings relevance to the academic teaching being presented."

In addition to teaching, he advises students and supervises student design projects. He is the faculty sponsor for the student chapter of the Society of Automotive Engineers. In that role he helps develop key career skills such as leadership, time management, conflict resolution, and budgeting to the members. He also is the USI Eagles wrestling team advisor.

He has presented at technology showcases throughout the region including at IUPUI Columbus, Indiana-Purdue Fort Wayne, and the Evansville-Owensboro section of the Institute of Electrical and Electronics Engineers. He also has served on a team of intellectual property (IP) experts to refine an IP mining process for Naval Surface Warfare Center, Crane Division, which greatly accelerated their patent pipeline. The team's work is now a best practice within the Department of Defense Office of Research and Technology.

He and his wife Kim have two children. Son Sam is a USI student and daughter Anna attends Reitz High School.

As recipient of the Distinguished Professor Award, Dr. Kuban will receive a monetary grant and will select a student to receive a scholarship in his name next year. He will deliver the address at the fall Commencement in December.

Phillip H. Behrens, IV is completing his college career at the University of Southern Indiana with a record of achievement in the classroom and through significant contributions to student life. He will graduate magna cum laude with a Bachelor of Science degree in biology. During the Commencement ceremony for the Pott College of Science, Engineering, and Education, he will receive the President's Medal, the highest honor presented to a graduate in the Class of 2012.

Mr. Behrens was selected as one of six recipients of the prestigious Baccalaureate/Doctor of Medicine (B/MD) Scholarship at USI. The scholarship is awarded to graduating high school students with an exceptional grade point average and top

President Linda L. M. Bennett became the third president of the University of Southern Indiana in 2009. In her inaugural address, she referenced the University's founding

Academic Regalia

The academic costume dates from medieval days when university students wore woolen and fur garments for warmth in damp and drafty buildings. Most of those studying were clerics in holy orders; they wore a cloak to which was attached a hood that could be pulled up to cover their tonsured heads. Simplified today, the costume serves to remind us that its wearer is a member of an ancient and venerable profession; it also indicates by its color and design the wearer's degree and the institution by which the degree was conferred.

In the United States, black has been the traditional color for academic gowns, but some institutions authorize holders of their doctorates to wear colors of the institution. The bachelor's gown is distinguished by its long, open sleeves; the master's by its closed, slitted sleeves; the doctor's by its full sleeves trimmed with bands of velvet, which may be black or a color denoting the field in which the degree was taken.

The mortarboard cap, proper for all degrees, is black. Tassels, usually black, are worn over the left front quarter of the cap. Holders of the doctorate may wear tassels of gold thread.

Academic hoods vary in length according to the degree attained and are lined with the colors of the institution by which the degree was granted. The honorary doctoral hoods of the University of Southern Indiana are black, lined with blue satin with red satin chevrons. They are edged with white velvet. Retired members of the University faculty and administrative staff can be recognized in today's ceremony by the red, white, and blue cords worn with their regalia.

Hooding Ceremony

Academic hoods vary in length according to the degree attained and are lined with the colors of the institution by which the degree was granted. Hooding signifies the induction of the graduate into the fellowship of the academy, a welcoming gesture by those who represent the high standards of scholarship and creative achievement. During the Graduate Ceremony, doctoral and master's degree candidates will receive hoods distinctive to their degrees.

Baccalaureate Scholarship Honors

The baccalaureate degree candidate graduating with the
